

July 20, 2016

Dear Interested Person:

This notice is to inform you that the waiting period for the Jamul Final Supplemental Environmental Impact Statement was incorrectly identified in the Federal Register Notice published on July 5, 2016. In the *Submittal of Written Comments* section of the original Federal Register notice, August 4, 2016 was incorrectly identified as the date by which comments must be postmarked. The original notice states that the Record of Decision (ROD) would be issued no sooner than 30 days from the date the Environmental Protection Agency publishes the Notice of Availability in the Federal Register. The EPA published its Notice of Availability for the Final SEIS on July 8, 2016. Therefore, the 30-day waiting period ends August 8, 2016. The ROD will not be issued until after August 8, 2016.

Please use the information contained within the *Submittal of Written Comments* section on the attached notice to submit any comments you may have. You may access an electronic copy of the Final SEIS at <http://www.jamulindianvillage.com>. To obtain a compact disk copy of the Final SEIS, please provide your name and address in writing, voicemail, or by e-mail to Andrew Mendoza at the address listed in the *Submittal of Written Comments* section of the attached notice, at the FOR FURTHER INFORMATION CONTACT section of the attached notice, or at Andrew.Mendoza@nigc.com. Note that individual paper copies of the Final EIS will be provided only upon payment of applicable printing expenses by the requestor for the number of copies requested.

Sincerely,

A handwritten signature in blue ink that reads "Michael Hoenig".

Michael Hoenig
General Counsel
